	Chargeback	Brian Smith Customer ID #3333333	Card	-\$1,000.00

In "Payouts", see a list of all payouts and details of each payment.

Click into each row with a dropdown arrow to view all transactions for that specific date.

Payouts Inbox (Continued)

Payment: Corresponds to the original transactions - both invoice and no invoice payments. This will be credited/ added to the SMB's account.

Chargeback: Reversal of the card transaction initiated by the customer. This will be debited/taken out from the SMB's account.

Chargeback Refund: SMB is credited after the chargeback was reversed by the Card network. This will be credited/added to the SMB's account.

Return: Customer returns for both card and ACH. A customer's payment cannot be processed, but the payment was already added to the SMB's account. The payment will be returned to CashFlow Central. Returns will be debited/ taken out of the SMB's account.

Representment: SMB is credited after the chargeback was reversed through the dispute process using CashFlow Central's system. This will be credited/added to the SMB's account.
